

Akash Sharma

Unity Game Developer | Programmer

India

Email: monstaraks@email.com | Phone: +91-8104843728

Objective

Passionate Unity Game Developer with strong skills in C#, gameplay programming, and mobile/web game development. Experienced in developing Android and web-based games, backend integration, and performance-optimized gameplay systems. Seeking opportunities to contribute to professional game development teams while building innovative gaming experiences.

Skills

Programming: C, C++, C#, Java

Game Development: Unity Engine, Gameplay Programming, Mobile Game Optimization, WebGL Deployment

Tools & Technologies: GitHub, PlayFab, Visual Studio, Unity Animation & Physics Systems

Other Skills: Problem Solving, Game System Design, Backend Data Integration

Professional Experience

Unity Developer — Nilee Games (Full-time)

- Developed gameplay mechanics and systems for mobile and web-based games.
- Implemented physics-based gameplay, character controls, and optimized movement systems.
- Worked with backend services to fetch and manage game data.
- Contributed to debugging, optimization, and feature implementation for production projects.

Projects

Shadow Stalker – 3D Stealth Assassin Game (Android)

- Developed stealth mechanics, AI behavior logic, and gameplay systems using Unity and C#.
- Designed player control systems and mission-based gameplay structure.

Auto Rickshaw Adventure (Web – CrazyGames Platform)

- Built web-optimized gameplay mechanics and endless-style progression systems.
- Implemented responsive controls and performance optimizations for browser gameplay.

Snake Trail 3D

- Created movement logic, body following system, and obstacle mechanics for a 3D snake gameplay experience.

Slime Core – Puzzle Platformer

- Developed size-based mechanics where character grows/shrinks to solve puzzles.
- Implemented level-based puzzle interaction systems.

Education

Bachelor of Science in Information Technology (BSc IT)

(Final Year)

India
